WEB SITE: [www.adenviro.com.au](http://www.adenviro.com.au)

FACILITIES: Public testing service

**This facility complies with the requirements of ISO/IEC 17025:2005**

## **7.82 Workplace environment and hazards**

- .01 Asbestos fibre counting
  - Estimation of airborne asbestos fibres by the membrane filter method described in the National Occupational Health and Safety Commission Guidance Note (2005) and in-house test method AAM
- .31 Asbestos identification
  - Qualitative identification in bulk samples
  - Analysis by Polarised Light Microscopy (including dispersion staining) techniques by the methods of -
    - AS 4964
    - in-house method ABI
    - for the following determinations -
      - Amosite; chrysotile; crocidolite
- .81 Volume measurement (air)
  - For tests under 7.82.01

## **7.84 Residues in constituents of the environment**

- .31 Mineral pollutants
  - Qualitative identification of asbestos in soil
  - Analysis by polarised light microscopy (including dispersion staining) techniques by the methods of -
    - AS 4964
    - in-house method ABI
    - for the following determinations -
      - Amosite; chrysotile; crocidolite

## **7.99 Approval**

- .01 Approved asbestos fibre counters
  - A Dobrovolsky
  - R Nefodov

# Scope of Accreditation

.02 Approved asbestos identifiers  
R Nefodov  
S Smith

**Accreditation No: 14664**
